An IQ test measures verbal and non-verbal problem solving abilities. It is not an achievement test.

To be considered for admission to OWS, applicants must achieve a full scale or composite score at the 95th percentile or above. COGAT group IQ test will not be accepted.

For students 6 years of age and younger we accept either the Wechsler Intelligence Test (WPPSI-III) or the Stanford-Binet, V.

For students 6 years of age and above we accept the Wechsler Intelligence Test (WISC-IV).

Students applying to third grade or higher must also submit achievement testing. This can be standardized group testing from a current or previous school (ITBS, etc) or a Woodcock-Johnson III (WJ-III).
